

root_mean_square_error
_int64

```
graph LR; A[root_mean_square_error_int64] --> B[mean_square_error_int64]
```

A diagram showing a transformation from a root mean square error to a mean square error. On the left, a gray rectangular box contains the text 'root_mean_square_error_int64'. A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'mean_square_error_int64'.
