

mod\_linalg::supremum  
\_eigen\_value::supremum  
\_eigen\_value\_real32

```
graph LR; A["mod_linalg::supremum  
_eigen_value::supremum  
_eigen_value_real32"] --> B["mod_linalg::supremum  
_eigen_value_real32"]
```

The diagram consists of two rectangular boxes connected by a blue arrow pointing from left to right. The left box has a light gray background and contains three lines of text: 'mod\_linalg::supremum', '\_eigen\_value::supremum', and '\_eigen\_value\_real32'. The right box has a white background and contains two lines of text: 'mod\_linalg::supremum' and '\_eigen\_value\_real32'. The arrow indicates a transformation or mapping from the state in the left box to the state in the right box.
