

mod_common::binary
_search_left::binary
_search_left_r8

```
graph LR; A["mod_common::binary  
_search_left::binary  
_search_left_r8"] --> B["mod_common::binary  
_search_left_r8"]
```

The diagram illustrates a transformation of code. On the left, a gray rectangular box contains three lines of code: 'mod_common::binary', '_search_left::binary', and '_search_left_r8'. A blue arrow points from this box to a white rectangular box on the right. The white box contains two lines of code: 'mod_common::binary' and '_search_left_r8'. This represents a transformation where the middle line of code is removed.
