

mod_common::binary
_search_right::binary
_search_right_r8

```
graph LR; A["mod_common::binary  
_search_right::binary  
_search_right_r8"] --> B["mod_common::binary  
_search_right_r8"]
```

The diagram illustrates a transformation or mapping. On the left, a gray rectangular box contains three lines of text: 'mod_common::binary', '_search_right::binary', and '_search_right_r8'. A blue arrow points from this box to a white rectangular box on the right. The white box contains two lines of text: 'mod_common::binary' and '_search_right_r8'. This suggests that the middle line of the first box is being removed or merged into the first line of the second box.
